

School of Health and Exercise Science
HES 333- Health Program Evaluation
Term II- W2024

Instructor: Tori N. Stranges, MPK, Ph.D.(c)
Office: ART 127
Office Hours: Thursdays 1:30-3:30 *or by zoom apt.*
Email: tori.stranges@ubc.ca

TA: Kierstyn Palmer & Azize Yildirim
Contact Information: kierstyn.palmer@ubc.ca, azize@mail.ubc.ca

We respectfully acknowledge the Syilx Okanagan Nation and their peoples, in whose traditional, ancestral, unceded territory myself and UBC Okanagan is situated.
Truth and Reconciliation Commission of Canada: Calls to Action

Lecture Time & Location

Time: Tuesdays & Thursdays, 3:30-5:00 PM
Location: ART 376

Online Resources/ Text/ Reading:

Lecture notes (PDF), assignment details, and other relevant information pertaining to the course will be posted on Canvas.

Helpful but not Required Text: Harris, M. J. (2016). Evaluating public and community health programs. John Wiley & Sons. – *PDF is available online via UBC library*

Course Overview:

This course will introduce you to the concepts and principles of health program planning, including needs assessment, intervention design and implementation, as well as process, impact, and outcome evaluation. You will be introduced to community intervention and evaluation techniques and their adaptation to health promotion.

Learning Objectives:

At the end of this class students will be able to articulate:

1. The importance of cultural considerations and EDI frameworks for health program evaluation.
2. The differences between prevention and empowerment to avoid blaming the victim with health interventions.
3. Develop an intervention strategy or health issue using a logic model

4. Describe the difference between formative and summative evaluation and use these approaches to develop a program evaluation plan
5. The six main types of health intervention strategies for community programming.

Evaluation Criteria and Grading:

- A. Weekly Reflection Posts - 10% (5 posts worth 2% each)
- B. Individual Paper - 20%
- C. Group Project - 35%
 - a. Part A- Design Health Intervention (15%)
 - b. Part B- Evaluation Plan (10%)
 - c. Part C- Presentation (10%)
- D. Final Exam – 35%

Reflection Posts (10%) *Due weekly on Friday after the weeks lectures at 6 p.m.*

The purpose of reflection posts is to reflect on your understanding of the course content each week. Students will be given in class time to complete each weeks reflection post. Students will have the opportunity to choose which of the 5 weeks they would like to submit their reflection posts. Reflections will focus on the lecture content we covered in the week. You will be provided prompts to help guide you through what is required (500 words maximum). The full 2% will be given if clear effort is demonstrated. Reflection posts are due the Friday of each week at 6 p.m.

Critical Paper (20%) *Due February 4th 11:59 p.m. (5 day grace period*)*

The purpose of the paper is for you to think critically and to reflect on broad issues related to health program planning and intervention. You will be provided questions to help guide you through the writing of the paper. These questions will be posted on Canvas as well as in class. The reflection paper should be 5 pages double spaced with at least 5 references.

** Students can submit up to 5 days late with no penalty*

Group Project (35%)

The purpose of this assignment is to work in small groups to: A) design a Move UBC health initiative that incorporates key messaging from Move UBC. This could include an initiative to improve the well-being of students on campus, an equity, diversity and inclusion program on campus, a health program targeting staff and faculty or an active transportation program etc. B) develop an evaluation plan designed to assess implementation and outcomes and C) provide a presentation that describes the intervention design and evaluation plan.

Each of your group members will anonymously rate your contributions as a group member on a scale of 1-10 and the average score will determine your final mark for the project (e.g., for every 1% that your score is below 10 your final grade will be deducted by 2.5%- this means that if your score is 6/10 and your group mark was 80% your individual mark will be 70%). At any point during the group assignment please speak to me regarding any concerns you have with respect to individual contributions.

This group project is broken into three parts:

- Part A: Design Move UBC Health Program- *Due March 3 at 11:59 p.m.*
 - o You will submit a needs assessment and a draft outline of your intervention plan for the health initiative you are working on. A template with specific questions to complete will be provided on Canvas. Further details regarding this step will be posted on Canvas under Group Assignment. Feedback will be given before Part B is due!
- Part B: Develop an Evaluation Plan- *Due March 24 at 11:59 p.m.*
 - o You will submit a plan detailing how you would evaluate your health initiative. A template with specific questions to complete will be provided on Canvas. Further details regarding this step will be posted on Canvas under Group Assignment.
- Part C: In- Class Presentation- *Due final 2 weeks of class. Order TBD*
 - o The final step of the group assignment involves a group presentation (**March 28, April 2**). Specific instructions for the group presentations will be posted on Canvas under Group Assignment. Essentially you will present the key components of your health intervention to the class. **Attendance is mandatory during group presentations.**

Final Exam (35%)

The final exam will be in-person and open note. This implies that you can't look up information online but you are free to review course materials that you bring to the final. Sharing answers and plagiarism is not permitted. The exam will be composed of a mixture of multiple choice, short and long answer questions. The specifics with regards to the number of questions will be provided in the review class at the end of the semester.

Grading Scheme:

A+.....	90-100
A.....	85-89
A-.....	80-84
B+.....	76-79
B.....	72-75
B-.....	68-71
C+.....	64-67
C.....	60-63
C-.....	55-59
D.....	50-54
F.....	0-49

Course Schedule:

Date	Topic	Required Material
<p>Week 1 Jan 9</p>	Introduction	Review syllabus.

Generative AI:

In this course, the use of Chat GPT or other generative AI tools is NOT strictly prohibited. Your instructor will provide some guidance about when and how you might consider using these tools effectively and ethically, and about using it in ways that will enhance your learning rather than hinder it. Note that this is a course-specific policy. Check with your instructor before using these kinds of tools in other classes.

Attendance:

Attendance for lectures is mandatory but and highly recommended as material discussed in class will be on the final exam for this course. Students who attend lecture generally achieve higher grades. Class participation is encouraged. The text and/or notes, other resources are easily accessible at any time, but it is impossible to duplicate the discussion, activities, challenge and interaction that takes place in the classroom.

Late assignments:

Assignments are due at the specified due date and time indicated on the course schedule, unless otherwise indicated; after that, the assignment will be considered 1 day late; for each late day, there will be a 10% deduction from the grade received.

Canvas Access:

To access the UBC Canvas page: Navigate to canvas.ubc.ca

How do I log in? Use your CWL and password.

You can also check out: <http://students.canvas.ubc.ca> or contact the UBC Information Technology Help Desk 250-807-9611.

NOTE: This syllabus constitutes an agreement between professor and student in accordance with University policy and is subject to the terms and conditions set forth herein. This syllabus is tentative and subject to revision in whole or in part, whether written or oral; each revision shall be subject to the terms and conditions set forth above. It is your responsibility to keep up with changes to the syllabus.

University Policies:

The examination period for Term 2 of Winter 2021 is April 12 to 27. Except in the case of examination clashes and hardships (three or more formal examinations scheduled within a 24-hour period) or unforeseen events, students will be permitted to apply for out-of-time final examinations only if they are representing the University, the province, or the country in a competition or performance; serving in the Canadian military; observing a religious rite; working to support themselves or their family; or caring for a family member. Unforeseen events include (but may not be limited to) the following: ill health or other personal challenges that arise during a term and changes in the requirements of an ongoing job.

Further information on Academic Concession can be found under Policies and Regulation in the *Okanagan Academic Calendar* <http://www.calendar.ubc.ca/okanagan/index.cfm?tree=3,48,0,0>
Version: July 2018

The Student Learning Hub is your go-to resource for free learning support—now online and flexible to meet your remote learning needs! The Hub welcomes undergraduate students from all disciplines and years to access a range of supports that include tutoring in math, sciences, languages, and writing, as well as dedicated learning support to help you develop skills and strategies for academic success. Don't wait—successful learners access support early and often. For more information, visit students.ok.ubc.ca/hub or contact learning.hub@ubc.ca

Writing Support:

Improve your writing with free support from the Student Learning Hub—now online and flexible to meet your remote learning needs! Undergraduate students from every discipline, working on

any type of written course assignment (or presentation), are welcome. We support writers at all stages of the writing process, from getting started and planning to drafting and revising. Peer writing consultants focus on your needs as a writer—they don't "edit" or "proofread." Instead, they listen, read, ask questions, and share strategies for doing it yourself, allowing you to explore your innate writing talents and discover a path to academic success that is uniquely yours. Don't wait—successful learners access support early and often. Visit students.ok.ubc.ca/hub or contact learning.hub@ubc.ca

UBC Okanagan Disability Resource Centre:

The Disability Resource Centre ensures educational equity for students with disabilities, injuries or illness. If you are disabled, have an injury or illness and require academic accommodations to meet the course objectives, please contact Earllene Roberts, the Diversity Advisor for the Disability Resource Centre located in Commons Corner in the University Centre building (UNC 227).

PREFERRED NAMES and PRONOUNS

UBC policy requires faculty, staff, and students to refer to each other by their preferred name and pronouns. The EIO provides some [basic guidelines](#). Beyond the Binary at UBC has a more helpful resources on their [Pronouns 101](#) page.

Students in this class are invited to share their preferred name and pronouns or not. If you are misnamed or misgendered, please correct the other person respectfully. Remember, it is easier to avoid using wrong pronouns if you know someone's name and simply refer to them by name.

The instructor prefers the names: Tori
The instructor prefers the pronouns: She, her.

UBC Okanagan Equity and Inclusion Office:

UBC Okanagan is a place where every student, staff and faculty member should be able to study and work in an environment that is free from discrimination and harassment. UBC prohibits discrimination and harassment on the basis of the following grounds: age, ancestry, colour, family status, marital status, physical or mental disability, place of origin, political belief, race, religion, sex, sexual orientation or unrelated criminal conviction. If you require assistance related to an issue of equity, discrimination or harassment, please contact the Equity and Inclusion Office.

UNC 227C 250.807.9291

email: equity.ubco@ubc.ca
